- 1.3 Please give a brief manifesto (no more than 200 words) to include your reason(s) for standing for election and the skills and experience you could bring to the Board of BCVA

As a passionate farm animal vet who has worked in practice since 1999 and then within the feed industry from 2011 I feel the time is right to give support to the cattle industry through BCVA. I have been a member for the majority of my working career and have attended most of the annual conferences. I have done a lot of work on infectious disease control and last year completed an MSc in One Health. In my day to day job I am involved in direct support with farmers, working with their local vet, relating to health, nutrition and management. I currently run an intern program at work to support and encourage new people to come into the agricultural industry, particularly from the nutrition side, but also ensuring they have understanding of management and environment on farms. As a member of the BCVA board I would aim to bring a wider knowledge of nutrition and its relationship to health and production to cattle vets. I would also bring my experience of supporting and training less experienced members. Alongside this, I would aim to use my One Health knowledge to bring a sustainable and all encompassing future to the membership.
