I am looking to diversify my skills and contribution to the industry. Having completed 6years as a GP farm vet I feel equipped to continue learning whilst also impacting the direction of future careers.

Areas I would like to enhance within the farm industry is the awareness and support for vets (and others in the industry) living with chronic illness.

My passions at work largely surround youngstock, dairy and future proofing farm efficiency, particularly with the increasingly hard demands of the climate, government changes and threat of imported foods. As well as farmer training on welfare and legislation.
