Note:

Manual for Official Controls

.....

The Hygiene Regulations permit the emergency slaughter of animals outside the slaughterhouse if they fulfil these conditions:

An otherwise healthy animal must have suffered an accident that prevented its transport to the slaughterhouse for welfare reasons.

A declaration completed and issued by the veterinarian recording the favourable outcome of the ante-mortem inspection, the date and time of, and reason for, emergency slaughter, and the nature of any treatment administered by the veterinarian to the animal, must accompany the slaughtered animal to the slaughterhouse.

B. Owner/ Agent's Declaration

Record all veterinary medicinal products or other treatments administered to the animal, from which the body is derived within the last 6 months, dates of administration and withdrawal periods	
Tuberculosis Is the animal a reactor or inconclusive reactor to the TB test? Is the holding under a TB restriction order?	
Brucellosis Is the animal a Brucellosis reactor? Is the holding under a Brucellosis restriction order?	
Is the holding/area under restrictions for other animal health or other reasons?	
Have any analyses shown that the animal may have been exposed to food-borne zoonoses or substances likely to result in residues in meat? If so attach a copy.	
Signature
